

EARTH C-AIR-NEWS

News and updates from Earth C-Air

Dear donors, supporters and helpers

On 25 April 2015 - 5 years ago today - the earthquake in Nepal brought devastation and misery. We wanted to offer the affected population a perspective and founded the aid organisation Earth C-Air. With your donation we have achieved a lot in the last five years. Thank you! Health, education and rescue: Earth C-Air will continue to concentrate its help in these directions.

RESCUE TRAINING

Our direct aid on the local level will continue to be necessary in the future. Regular training and further education of the local rescue teams guarantee safe and professional operations in the Himalayan mountains. In January we conducted the annual rescue training. The local crew was specially trained to search for avalanche victims and fire-fighting operations. In order to provide efficient help in an emergency, the entire Simrik-Air team including flight assistants was trained. Many thanks to the experienced experts Beat Marti and Robi Hurschler for their voluntary work.

HOSPITAL KHORLABESI

In the near future we will pay special attention to our hospital project in Khorlabesi. The site for the hospital was flattened at the beginning of February. Our construction specialist Sandro Guinand made further clarifications on the site. The effects of the corona measures have also left their mark on our direct aid. The borders in Nepal are closed. Fortunately the Nepalese people are not too badly affected by Covid-19. Thanks to our close contact on site, contractors for the hospital could be chosen in the meantime. Detailed plans such as the sewerage system, electrical installations or the choice of building materials are currently being worked out by e-mail. We are confident that the situation will return to normal after the summer monsoon.

RELAUNCH OF THE WEBSITE

Just in time for our anniversary, we have adapted our website in order to provide even more detailed and transparent information on our projects. At www.earth-c-air.com you can see the progress at any time and you can contact us. Start with a small good deed and recommend our newsletter to your friends and family.

There are still big challenges to solve for the people of Nepal. With you as a donor and supporter, we will be able to continue our help with great passion and enthusiasm.

Many thanks for all the trust you are putting into our projects!

Namaste and thank you! Vielen Dank! Merci! Grazie!
